Job Objective

Senior Angular developer with over 5 years of experience and extensive knowledge in the business field, acquired through my combined education. I am seeking a new challenge within your organization to fully leverage my skills and domain knowledge, and to make a significant contribution to the company's success.

Education

May2018   Management information System. El-Shrouk Academy, Egypt**.**

Work Experience

Senior Front-end Developer – **Rateema**   **Jan 2023 - Present**

played a major role in building the project for the Traof Charitable Association

It is based in Saudi Arabia and aims to sponsor orphans and widows. It has a large number of students and teachers, activities and donations, and part of the human resources and accountants, a comprehensive system for the institution.

Senior Front-end Developer – **Arab Academy**   **Jan-2022 Oc-2023**

I contributed to the development of the Naval Academy's website

The website for students, registration, and the part of the internal control panel

Which builds pages and the part related to human resources, messages and media..

Front-end Developer – **Umsco**   **Dec – 2021 Jul-2022**

I contributed to the project for an engineering company that works on tenders

A special section for employees, human resources, and the tree of accounts

Recording all transactions and tasks related to each employee, attaching files and copies of contracts and checks so that they can be dealt with easily, and sending faxes, which led to speed and organization of work.

After the success of the project, the project was sold to more than one company

Front-end Developer – **Spec.technology**   **Mar 2021 - Oc 2021**

I modified some projects that were already working with the company and UI developer sites for clients to boost brand identity, improve online presence,
